[Watch The Gameplay If You Were Stuck On Anything... I Beat It](#)
[I HONESTLY LOVED THIS GAME... VERY FRUSTRATING BUT IN THE END ITS WORTH IT!!](#)
[Heres A Short Review To Help You Decide Wether Or Not To Buy It :](#)
[Is the Game Worth The Money? Yes of course it is](#)
[How Long is it? For me it took an hour and a half which felt like 3 hours. Honestly all depends on how good you are at this game. It has moments where it feels like "Emily wants to play" Cause you're in survival mode and you're trying to run away from that doll. Heres some Pro/Cons](#)

Pros :

- [-Its Freaking Terrifying](#)
- [-The Doll Itself Makes The Game 10x Scarier](#)
- [-Grapchics Are Decent](#)
- [-Game Runs Smoothly](#)
- [-Its Clear On What Your Next Task Is So You Dont Look Like A Lost Dog](#)
- [-The Ending Is Satisfying \(No Spoilers Here\)](#)
- [-Location Is In The Middle Of No Where So Dont Expect Any Help o 0](#)
- [-The Atmosphere Of The Game Gives You Chills](#)

Cons :

- [-I Think Theirs a Small Bug In The Beggining Where You Cant Get Up.. To Fix That I Restarted The Game A Few Times And The Mashed The Buttons To Eventually Get Up And Start The Game... THATS THE ONLY BUG LIKE THAT THROUGH THE REST OF THE GAME SO DONT WORRY!](#)
- [-Theirs No Point Of Hiding Because It Doesnt Matter The Timing You Get Out Of Hiding He Will Still AUTOMATICALLY Get You And That Was Very Frustrating. You Have To Instantly Get The Key On The Kicthen Tabel And Make Yourself Unoticeable To Him. That Meaning Dont Hide Under A Bed Just Stay On The Side Of The 2nd Bedroom Door And Wait For Him To Pass By.](#)
- [-TO THROW THE LIGHTER PRESS THE BUTTONS ON THE MOUSE TO THROW IT. THERE IS NO CERTAIN SPOT TO BE TO THROW IT JUST GET A FEW STEPS OUT THE DOOR AND THROW THE LIGHTER ON GASOLINE.](#)
- [. Yes this game is an asset flip. so what should I do to play? Pay \\$29.50 on](#)
<https://www.assetstore.unity3d.com/en/#!/content/55700> or pay \$1.79 for this?
- [Tell me where is the problem?](#)

[The principle you're right, that's why I would like to make refund but not only; the game is incomplete that was a reason of the cheap price. have a more potential to be the best fly simulator, but without a multiplayer, statistics, story line, more music, more achievements, more mission and other, it's just a copy of incomplete idea from the original developer \(It's not stolen and reverted\). So if you are confused as me meanwhile stay away and wait for news updating, but If you want to play a casual race fly game with gorgeous world that make you in a trip, take it!. Delightful little game, and a good mental challenge.. Interesting little japanese roguelike, with a wider variety of character/class selection. Not that I've unlocked any new ones of course yet.](#)

[Learned about this from roguebasin and picked up once it dropped on steam.](#)

[As I said in another review, roguelikes tend towards the cheap end of things, which makes gambling on them easier. Has a switch port, which I might get sometime.. I'm a fans of SAO Anime. But not this game...](#)

[One word to summarize this game : "Boring..."](#)

[I lost all my passion to finish the game, so here is my unfinished review](#)

[Pros :](#)

[- It's SAO game with all the SAO Characters and resources](#)

[CONS :](#)

[- No real story or conflict. Just you trying to get to the top floor.](#)

[- Booooooring and repetitive battle. You repeat the same chore again and again untill you reach the top floor.... Even the hollow area is not that interesting....](#)

i love farm mania. Okay well, I had a whole spiel going here. This review was Positive at first, then Negative, now it's Positive again. Why? Well because the Devs for this game actually give a damn about the fans, left a comment, and nullified all my complaints in one fell swoop. My initial positive review was, in short, about how well written this game was. I wasn't much a fan of the voice acting, but that's really more of a personal opinion than a game flaw. My negative review followed close behind 'cuz I replayed the game a bunch and found the choices lacking in terms of impact, I felt like my hands were tied in only getting the ideal ending that the devs had mapped out. Well, I was wrong, sorta'. According to top-secret documents for which I must now burn, the Devs have a remedy to my complaints waiting in the wings.

In short, buy it. 'Cuz Elves.

Also because the Devs are pretty cool.. From the initial view I expected something similar to Settlers III, graphic and gameplay likewise, but was let down.

The overall game is designed too slowly paced and too complicated at the same time. After planning a path for a road you need assign a worker to every single tile. The annoying part is that they have to return to the main building before you can assign them to another tile, giving the game the pace of a browser game like OGame or Farmerama. Basically you need to sit there and wait for your guys to return during the first minutes of the game, not able to do anything else.

The explorer you need to locate new areas cannot be sent into unknown territory and sticks to the tiles, which slows him down alot as well.

So overall this game bores you before it even actually started to show you some and adds way too much micro management for a handful of buildings. Plus the english localization appears to be scrappy (missing words etc).. I bought it to see if the card drops were still available and I was glad to see they still are. (1 Every Hour Though...)

My ultimate goal is to craft the noose emoticon which so far has been a failure...

Game is alright, though I really bought it for the steam items. :P. Got -4% in warrior and 104% in diplomat... Picard would be proud

<https://i.gyazo.com/701ef55b9a534589ddf21717c67a01fe.png>. That is an amazing DLC! The most important part is the riot shield and bouncing grenades off it. Also, they've added co-op mode, which is....Well... Awesome!
